

如何在 Word 中引用 Endnote 的參考文獻並轉換期刊格式

Microsoft Office Word 2003 版

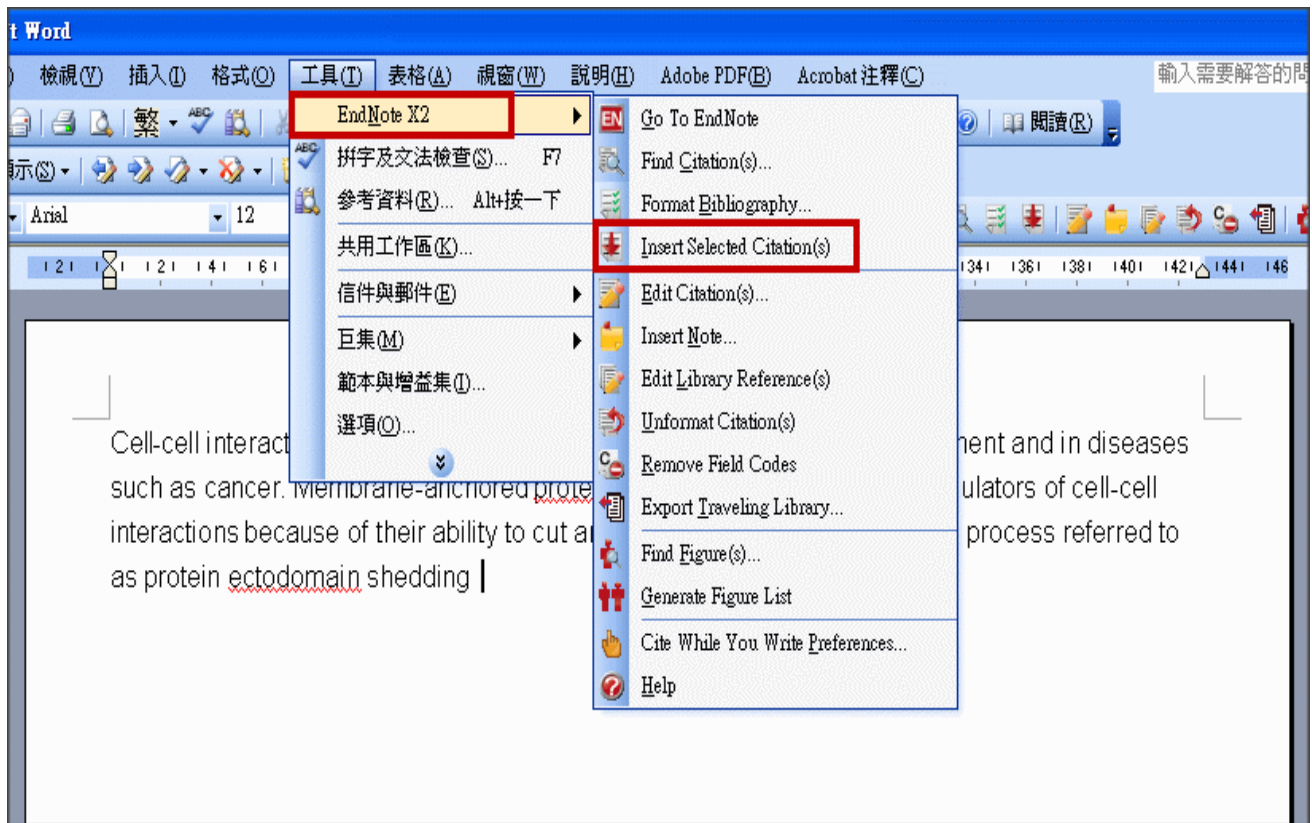

步驟一：將滑鼠游標移至欲插入引用文獻處

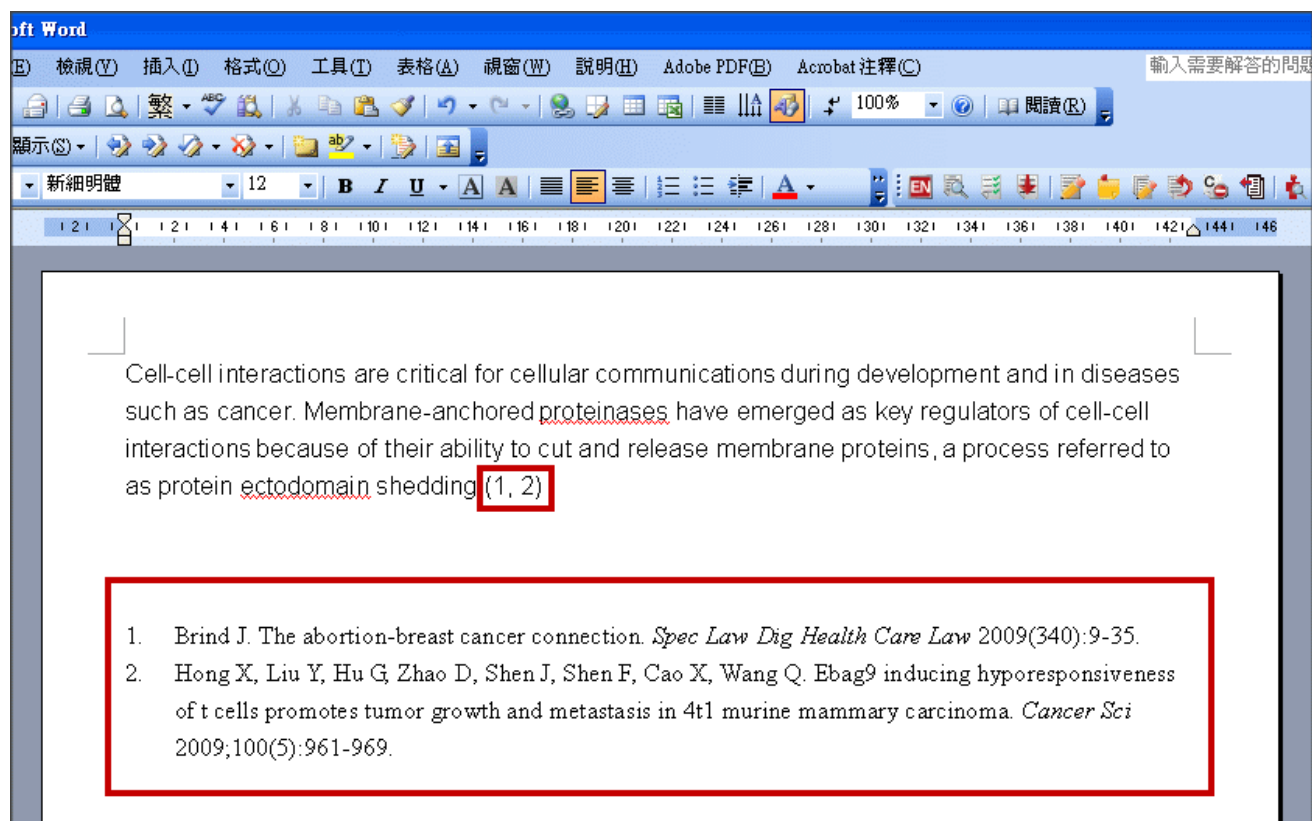

步驟二：開啟 Endnote Library，選擇一筆或多筆欲引用書目

步驟三：在 Word 中，點選工具→EndNote X2→Insert Selected

步驟四：完成參考文獻引用

步驟五：開啟 Word 檔案

The screenshot illustrates the process of opening a Word document and configuring EndNote X2 settings. It shows the 'Tools' menu with 'EndNote X2' selected, leading to 'Format Bibliography...'. The 'EndNote X2 Format Bibliography' dialog box is open, showing 'Format document' set to 'Cell.doc' and 'With output style' set to 'Amer J Resp Cell Mol Bio'. A red circle highlights the 'Browse...' button. The 'EndNote X2 Styles' dialog box is also open, showing a list of styles with 'Phytomedicine' selected. A red dashed arrow points from the 'Browse...' button to the 'EndNote X2 Styles' dialog box.

1. 點選工具→EndNote X2
→Format Bibliography

2. 點選Browse

3. 選擇期刊格式

步驟六：完成期刊格式轉換

The screenshot shows a Microsoft Word document with a paragraph of text. The text is: "Cell-cell interactions are critical for cellular communications during development and in diseases such as cancer. Membrane-anchored proteinases have emerged as key regulators of cell-cell interactions because of their ability to cut and release membrane proteins, a process referred to as protein ectodomain shedding (Brind 2009; Hong et al. 2009)". The citation "(Brind 2009; Hong et al. 2009)" is highlighted with a red box. Below the text, a red box contains the corresponding bibliography entries: "Brind, J., 2009, The abortion-breast cancer connection, *Spec Law Dig Health Care Law*, 9-35." and "Hong, X., Y. Liu, G Hu, D. Zhao, J. Shen, F. Shen, X. Cao, and Q. Wang, 2009, EBAG9 inducing hyporesponsiveness of T cells promotes tumor growth and metastasis in 4T1 murine mammary carcinoma, *Cancer Sci* 100, 961-969."
