什麼是EndNote?

- 協助管理書目資料
- Word寫作時產生citations(文內引用) & references(參考文獻)

According to traditional Chinese medicine, the pericardial meridian is associated with the pain or fullness in the chest, palpitations, depression, restlessness, manic or depressive disorders, nausea or vomiting, hiccups, gastric pain, and distension in the upper abdomen (Bai and Baron, 2001). Since the parasympathetic modulation of both heart and gut is largely mediated by the vagus nerve, and since vagal stimulation of the gut can result in increased peristalsis while the vagal stimulation of the heart can result in decreased heart rate (Guyton and Hall, 1996), it is speculated that to some extent the pericardium meridian might be associated with the autonomic nervous modulation of the subject.

Acupuncture or acupressure at the Neiguan (P6) point, the most frequently used acupoint in the pericardium meridian, has been shown to lessen nausea and vomiting (Dundee *et al.*, 1987, 1988, 1989a and b; Ho *et al.*, 1989; De Aloysio and Penacchioni, 1992; Belluomini *et al.*, 1994; Fan *et al.*, 1997; Harmon *et al.*, 2000). Because nausea and vomiting are also related to autonomic nervous activity (Morrow *et al.*, 1992; Morrow *et al.*, 1999), we speculated that the autonomic nervous activity might be changed when acupuncture at the P6 point was performed.

當 Creat a new Library 時

- 執行 Endnote 程式要 Creat a new library 時，盡量維持程式的預設途徑(通常是在 Document 資料夾；或 C槽 user 資料夾裡)
- Library 檔案命名時，盡量使用英數，不要有中文字
- 如要改變 Library 檔案名稱，需同時改變 xx.enl 和 xx.Data 二支檔案名稱，使其一致才能開啟

書目資料匯入

■ 由資料庫匯出的選項可能是：

- Export、Download、Cite、EndNote、Save、Send to ...
- Citation manager、Citation、RIS format ...
- 輸出、匯出、引用、儲存等

■ 下載後的檔案，可直接點選自動匯入的有：

- *.enw
- *.ciw
- *.ris
- *.nbib

書目資料匯入

■ 資料庫直接匯入

- PubMed、Embase、CINAHL、WOS
- Google Scholar、Cochrane Library
